

Achieve long-term customer loyalty and retention

Exact Synergy CRM brings connected insight to your business

With Exact Synergy Enterprise, your customers come first. Synergy Enterprise enables you to monitor, understand, manage and maximize sales performance, as well as leverage customer information into long-term customer loyalty and retention.

It seamlessly integrates customer data across the organization into one database. Your clients, business partners, employees and vendors are automatically associated to one another and to all relevant and mission-critical business transactions.

Exact Synergy Enterprise stands out from traditional CRM applications in the way collaboration is organized. The integration of all department processes allows you to capture the entire customer experience as it relates to your enterprise. Synergy Enterprise does much more than simply store, update and manage customer data. It provides the crucial information necessary to continuously cultivate the customer relationship.

When information becomes action

Synergy Enterprise enables you to connect and interact in more satisfying and rewarding ways. The result is an organized, active and real-time business community. With Synergy Enterprise, your entire value chain gets a portal view of the workplace: relating customers to employees, business partners and suppliers. It provides all stakeholders with a 360-degree overview of all relevant and related activities and communications.

You can manage the sales cycle, from easy handling and uploading leads (use the web interface for easy batch entry), to a complete overview and monitoring of sales and pipeline opportunities within the sales channel, to closing the deal. Historical analysis adds to the learning process and future efficiency improvement.

Exact allows you to enjoy an overview of all opportunity details at a glance, including status, dates, responsible sales team members, etc. With our unique, customizable Opportunity Card, you can
